LOL. No words. No words. But I did play this game and make a couple of suggestions to this "no experience developer" that should challenge him as much as his current game challenges me! That video and suggestions within can be seen [HERE](https://www.youtube.com/watch?v=49OH7BCy2Cg&feature=youtu.be): <https://www.youtube.com/watch?v=49OH7BCy2Cg&feature=youtu.be> My recommendation: Sure! Help this guy out, the game isn't bad. It's certainly not great, but you can do a helluva lot worse here on Steam for a dollar. ;-). Plus I feel like this game could be a lot better and definitely worth the 99 cents if he takes my challenge and makes a very simple change to his game!.
